

# We identify flood risk for home buyers and make recommendations on how to minimise flood hazards

**\$550**

## Desktop Flood Assessment

(Pre-purchase)

- Report based on flooding data from Council's Geomap.
  - High level feedback on flooding risks.
  - Memo of findings.
- (Excludes site visit, reviewing property files, flood calculations, client meetings).*

**\$1,500**

## Engineering Investigation Report

(High flood risk properties)

- 30min site investigation of current flooding issue.
  - High level feedback on flooding risks.
  - Memo of findings and how to minimise/avoid future flooding through remedial work.
  - Review property files from client.
- (Excludes flood calculations, design work, and additional client meetings).*

**Ensure proper flood insurance, informed land use decisions, and peace of mind for home buyers.**

**We also provide detailed flood assessments for developments.**
